FOCUS SALMO

FOCUS SALMO is Skretting's line for
Rainbow trout pigmentation.

SKRETTING
a Nutreco company

The product

Skretting knows how important the feed is in ensuring best trout pigmentation.
Focus Salmo is much more than a standard feed with pigments on top!
Skretting AI developed a specific formulation for best fillet texture and stable pigmentation.
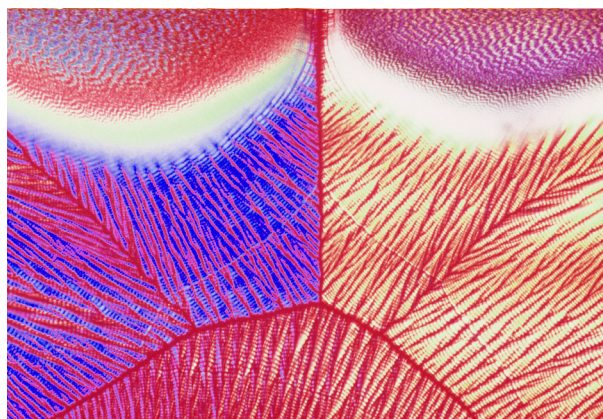

Specific essential nutrients profile

Essential nutrient levels are balanced to ensure better fillet texture and pigmentation stability after processing.
Antioxidant protection

Formulation designed to protect carotenoids against oxidation both in the feed and in the fish.

Raw materials selection

Raw materials are selected taking into account their impact on pigmentation.
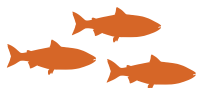

The complete package

FOCUS SALMO:

Medium-energy product for trout pigmentation
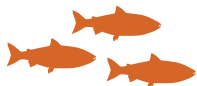

FOCUS SALMO HE:

High-energy product for trout pigmentation
